

California OES Weather Threat Briefing

Thursday, November 7, 2019
9:00 AM PDT

- **Day 1:** Elevated fire weather conditions will persist due to very low relative humidity and poor overnight recoveries in many areas

National Weather Service
*Western Region Headquarters
Regional Operations Center
Salt Lake City, UT*

WEATHER KEY POINTS

11/07/19 - 11/13/19

Thursday-Wednesday

- Elevated fire weather conditions will persist due to very low relative humidity and poor overnight recoveries in many areas
- Portions of the state will continue to see stagnant air this week. Air stagnation may lead to poor air quality which could cause issues for people with respiratory problems.
- Periods of breezy northerly or offshore winds are possible in some locations, especially across the southern region, Thursday night into the weekend with gusts up to 25 mph. No major wind events are forecast for the next week.
- No precipitation is expected across the state through at least the next week
